ABOUT POSTQUEEN

The agentic social *media scheduler.*

PostQueen is the agentic social media scheduler. People ask the AI agent they already use, such as Grok Bot, Muse, Claude or ChatGPT, to write their posts. PostQueen schedules and publishes them to 30+ networks, keeps every post on one calendar and shows how each one performs.

FOUNDER

I built PostQueen for my own apps. Promoting them meant posting on every channel, every week, and I kept falling behind. Now I tell my agent what to share, and it's handled.

Gökhan KINAY

Founder, PostQueen

Before PostQueen, Gökhan founded Trifles Games, a mobile games studio in Istanbul, and led a team of 14 there. In 2023 Forbes named him to its 30 Under 30 Europe list (Sports & Games).
